Month vs. Profit

Sum of Profit for each Order Date Month.

Going by historical data -- if we use September, December, and March as our most profitable months, and using our most profitable states of California, New York, Washington. The callout would be that our ROAS (Return On Ad Spend) in these areas would warrant a Advertising budget of 1/5 to 1/4 of the profits by state to pay to gain market share if the ROAS is there.
